

# Making multi-printers remote configuration reliable and secure.

Symtrax Customer Engineers hold deep knowledge on Output Management Solutions as well as the ability to fit your specific business environment and needs. They collaborate closely with our Software Product Managers, thus incorporating best practices into our service solutions.

In continuation of our level of commitment of customizing according to your needs, this solution can be offered with a combination of onsite or remote service, all steps at once or in phases, on work for hire or fixed bid basis. A prototype of your solution can be implemented allowing you to have a proof of concept.

Please consult our Solution Managers at [www.symtrax.com](http://www.symtrax.com) on the best suited approach for your specific project.

SOLUTION IMPLEMENTATION	<b>Project Specifications</b> <span style="float: right;">2 days recommended</span>	
	<ul style="list-style-type: none"> <li>• Meeting solution implementation with your printing requirements                             <ul style="list-style-type: none"> <li>○ Integration into existing IT architecture (network, systems)</li> <li>○ Balancing implementation with document volume and needed performance</li> <li>○ Printing priority rules (multi-thread processing, dedicated output device)</li> </ul> </li> <li>• Printing management                             <ul style="list-style-type: none"> <li>○ Dynamic printing dispatch: Redirection on printers according to specific output content</li> <li>○ Automatic printing parameters (e.g. tray selection, copy options)</li> <li>○ Adequacy with needed schedules (direct or postponed processing)</li> </ul> </li> <li>• ERP output documents / spool files identification</li> <li>• Customized design:                             <ul style="list-style-type: none"> <li>○ Reformatting of selected data from original document</li> <li>○ Graphical elements integration (e.g. logos, bar codes, shapes)</li> <li>○ Matching with corporate identity for official documents</li> <li>○ Variables selection for automatic printing management purpose</li> <li>○ Added value by integration of database content</li> </ul> </li> <li>• Printing process automation                             <ul style="list-style-type: none"> <li>○ Linking original and printed document by selecting relevant document parameters</li> <li>○ Fulfilling needed actions (e.g. print, archive, mail, Zip)</li> <li>○ Solution schedules requirements</li> </ul> </li> <li>• Solution monitoring (log files, email notifications, reconnection settings)</li> <li>• Defining project schedules, phases and deadlines</li> </ul>	
	PROJECT ACHIEVEMENT	<b>Architecture &amp; Installation</b> <span style="float: right;">1 day recommended</span>
		<b>Customization &amp; Implementation</b> <span style="float: right;">Depending on needs</span>
PROJECT CUSTOMIZATION	TRAINING	<b>Knowledge Transfer</b> <span style="float: right;">3 days recommended</span>
		<ul style="list-style-type: none"> <li>• <b>IT Administrator Software Training</b> <i>Compleo Supervisor Training guide</i> – 4 languages, 20 pages</li> <li>• <b>End users Software Training</b> <i>Compleo Explorer Training guide</i> – 4 languages, 17 pages <i>Compleo Wizard Training guide</i> – 4 languages, 37 pages <i>Compleo Layout Training guide</i> – 4 languages, 40 pages <i>Compleo MapForm Training guide</i> – 4 languages, 54 pages</li> </ul>
