

## About Symtrax

---

Symtrax is a global organization specializing in Document and Data Management solutions. Compleo Suite is our automated, multi-system, SAP-integrated document management software. We provide an efficient means to generate and distribute documents with the power of the SAP Cloud Platform. Users from different entities can easily collaborate to ensure invoices, legal agreements, proposals, and other documents all meet the same standards.

## Embrace Cloud Document Management

---

Compleo Suite's modules help facilitate and manage ERP-generated documents. Create reports, make design changes, and share the results through a unique link instead of an attachment. With multilingual text translation, versioning views, and interconnective capability features, your company can stay competitive while effortlessly reaching out to clients and partners – no SAP access required.

### **Symtrax is a certified SAP Silver Partner.**

Our products work easily alongside SAP software, including ECC and SAP R/3, as well as other integrated third party platforms like Sharepoint and Amazon Web Services. Department heads have the chance to implement an automated document lifecycle to avoid backlog and digitize existing processes.

## Kevin Sheen - Basis Admin II @ MSA

---

"What used to take hours of my time can now be completed within a few minutes thanks to distribution automation. Now instead of each person individually pulling reports, I am able to generate reports and email them out automatically. This has saved us valuable time and money."

# How can Compleo Suite help you?

## Compleo Suite Modules

---

### Recreate the Look of your Documents
